1. PREAMBLE

The preamble is part of the present Agreement.

3. LICENSE

3.1 Terms

InnovMetric hereby grants the Licensee a nonexclusive, non-transferable license to use the Licensed Products solely for its own internal use only and for no other purpose.

3.1.1. For purchased or free perpetual Licenses only—excluding licenses leased for a predetermined period of time, evaluation licenses, and temporary “one-year use” licenses—the license is granted for an indefinite period.

3.1.2. For licenses leased for a predetermined period of time, for evaluation licenses, and for temporary “one-year use” licenses, the license is granted for a period beginning at the installation date and for the duration of the lease, evaluation period, “one-year use” period, or another period as agreed between InnovMetric and the Licensee. Therefore, the obligations imposed on the Licensee by this EULA in case of predetermined period of time, for evaluation licenses, and for temporary “one-year use” licenses shall be limited to the term or lease period of such license, except for the obligations listed in section 4 that shall survive the termination of this Agreement.

3.2. For subscriptions purchased for a predetermined period of time, the license is granted for the duration of the subscriptions to the first differentiated users or devices that connect to the license server. Licensed Users are allowed the concurrent use of one instance of each Licensed Software component.

Each licensed individual user must have their own login credentials and is strictly prohibited from sharing, distributing, or permitting any other user of the Licensee to use their login credentials associated with the subscription.

3.3. License Sharing and Borrowing

Notwithstanding section 3.1., for the duration of subscription outlined in section 3.2., InnovMetric explicitly authorizes the Licensee to share the following items with third parties with whom the Licensee has a contractual relationship ("Third Parties).

3.3.4. The only authorized license sharing method is through PolyWorks|DataLoop Core Server, upon prior formal authorization from InnovMetric. InnovMetric reserves the right to cancel the Third Parties' right to use the items described herein, should the Third Parties utilize them in a manner and/or for a purpose outside the scope allowed by section 3.

3.4. It is the responsibility of the Licensee to clearly advise all Users, as described in section 2.6, of all obligations contained in this Agreement.

4. PROTECTION OF PROPRIETARY RIGHTS

4.1 Right to Use Licensed Products

The Licensee acknowledges that no right, title, or interest, other than the right to use the Licensed Products, is transferred or granted by this Agreement. The Licensee is prohibited from selling, renting, leasing, making available to third parties, and sublicensing the Licensed Products. Notwithstanding the foregoing sentence, the Licensee may share their PolyWorks|DataLoop and PolyWorks|Inspector licenses with Third Parties in strict compliance with and to the extent permitted by the provisions outlined in section 3.3.

4.2 Open Source Libraries

The use and operation of the Licensed Software may require the concurrent use of the Open Source Libraries listed at the following hyperlink: <https://downloads.polyworks.com/doc/PolyWorksThirdPartyNotices.pdf> (the "List of Open Source Libraries"). The Licensee acknowledges that InnovMetric shall be entitled to update the List of Open Source Libraries, as the use of Open Source Libraries varies upon each new release. InnovMetric represents and warrants that it has the right to authorize the use of such Open Source Libraries by the Licensee in conjunction with the Licensed Software, in full compliance with the licensing terms of such Open Source Libraries. Where and to the extent required pursuant to the licensing terms of such Open Source Libraries, InnovMetric will provide or make available a copy of the source code of such Open Source Libraries to the Licensee. Licensee's use of such Open Source Libraries is governed by the terms of this Agreement, not the usual licensing terms of such Open Source Libraries. InnovMetric represents and warrants that it is authorized to license the

use of such Open Source Libraries as per the terms of this Agreement. The Licensee releases all third-party owners or licensors of such Open Source Libraries of any and all liability flowing from representations, conditions, warranties and covenants made or provided pursuant to this Agreement that go above and beyond those representations, conditions, warranties and covenants made or provided under the usual licensing terms of such Open Source Libraries, as applicable between InnovMetric and such third-party owners or licensors.

4.3 Confidential Information

Licensee acknowledges that the Licensed Products constitute trade secrets, are furnished by InnovMetric to the Licensee in confidence, and contain proprietary and confidential information. The placement of a copyright notice on any portion of the Licensed Products will neither be construed to mean that such portion has been published, nor derogate from any claim that such portion is a trade secret or contains proprietary and confidential information.

4.4 Nondisclosure

Licensee agrees that it will not, under any circumstances, except as expressly authorized hereby, distribute or disseminate any information contained in or disclosed by the Licensed Products, including but not limited to any technical information, design concepts, processes, procedures, formulae or algorithms, to any person except to those of its employees and/or other Users whose access is necessary for Licensee's use as set forth above.

Licensee will take appropriate action, by agreement or otherwise, with such employees and/or other Users, to inform them of the trade secret, proprietary, and confidential nature of the Licensed Products so as to obtain their compliance with the terms of this section. In the event that the Licensee, or any of its present or former employees and/or other Users breach the confidentiality obligations of this Agreement, the Licensee shall be jointly and severally liable to InnovMetric for any loss incurred by InnovMetric resulting directly or indirectly from such breach.

4.5 Restrictions on Copying

Licensee will hold the Licensed Products in strict confidence. InnovMetric hereby grants the Licensee the right to make copies of the Licensed Products for backup purposes only.

4.6 Reverse Engineering

Licensee is prohibited from reverse engineering, decompiling, disassembling, or creating any derivative work of the Licensed Products. Licensee shall not allow anyone to modify, disassemble, or decompile the Licensed Products, or create any derivative work in any possible way.

4.7 Relief

Licensee acknowledges and agrees that the Licensed Products, as well as all other information in whatever medium disclosed to the Licensee hereunder, are unique and commercially valuable and that any breach by the Licensee of the terms of this Agreement with respect to protection against disclosure or distribution of the Licensed Products or such information would result in an irreparable and continuing injury to InnovMetric for which money damages would be inadequate. In the event of such a breach or anticipated breach by the Licensee, InnovMetric shall be entitled to immediate injunctive relief or any other recourse and to specifically enforce

the terms of this Agreement, in addition to any other remedy to which InnovMetric may be entitled at law or in equity.

4.8 Noncompetition

Licensee agrees that it shall not use the Licensed Products to assist in the development or design of a computer software program or other technology that is intended to provide functionalities, or graphical user interfaces (GUI), substantially similar or similar to the Licensed Products.

4.9 Development of Utility

The Licensed Software shall not be used to develop, nor shall the Licensee market, any conversion utility or aid specific to the Licensed Software enabling or facilitating users to convert from the Licensed Software to alternative software not marketed by InnovMetric.

4.10 Floating License Usage Report

The Licensee hereby acknowledges that the grant of a license to use the Licensed Products pursuant to a 'floating license' mode is subject to pricing which may vary upon the actual place of use of the Licensed Products. By purchasing a floating license, the Licensee agrees that InnovMetric may request, not more than once a year, a written usage report. In these instances, an authorized officer of the Licensee would then certify in writing the annual percentage of floating license usage per country. The Licensee shall cooperate with any reasonable requests of InnovMetric to facilitate any such audit.

6.3 Nonapplication of Warranty

Software version does not represent the final

product from InnovMetric, and may contain bugs, errors, and other problems that could cause system or other failures and data loss.
